

SmartLab

Intelligent Laboratory in the Library

DISCOVER,

CREATE.

LEARN

AND GROW.

Makerspace, creative workshop,
or Fablab?

How about SmartLab?

We present to you
the Intelligent Laboratory
in the Library.

SmartLab

Development of digital skills

Support for creativity

Experiential learning

Promotion of science and technology

Development of manual skills

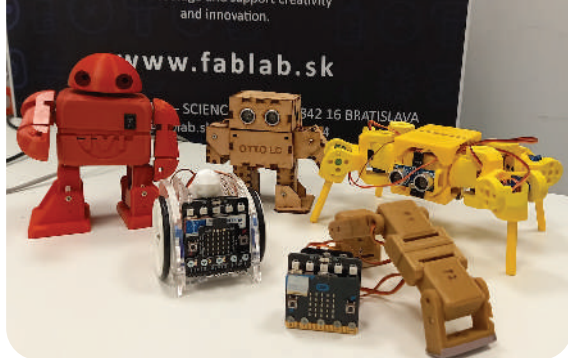

Offering new services

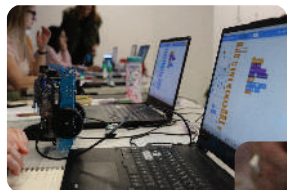

SmartLab in the Library

Openness, community aspect, support for education, and sharing—these are just some of the common features of both libraries and creative workshops.

Welcome to the spaces of libraries where you can discover your creativity, bring your ideas to life, and acquire new digital and manual skills.

SCIENCE

TECHNOLOGY

Innovative Education

Innovative and especially playful education not only for children and youth, focused on STEAM areas.

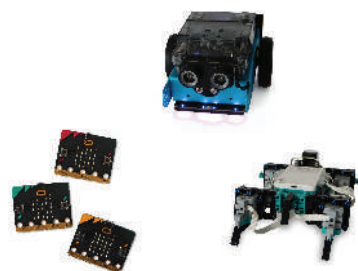

ART

ENGINEERING

MATHEMATICS

Equipment

3D printer, pyrography pens, sublimation printer, heat press, laptops, and more.

Robots and microcomputers for experiential learning in programming, robotics, and artificial intelligence.

50

SmartLabs in libraries across Slovakia.
